Oh Happy Day...

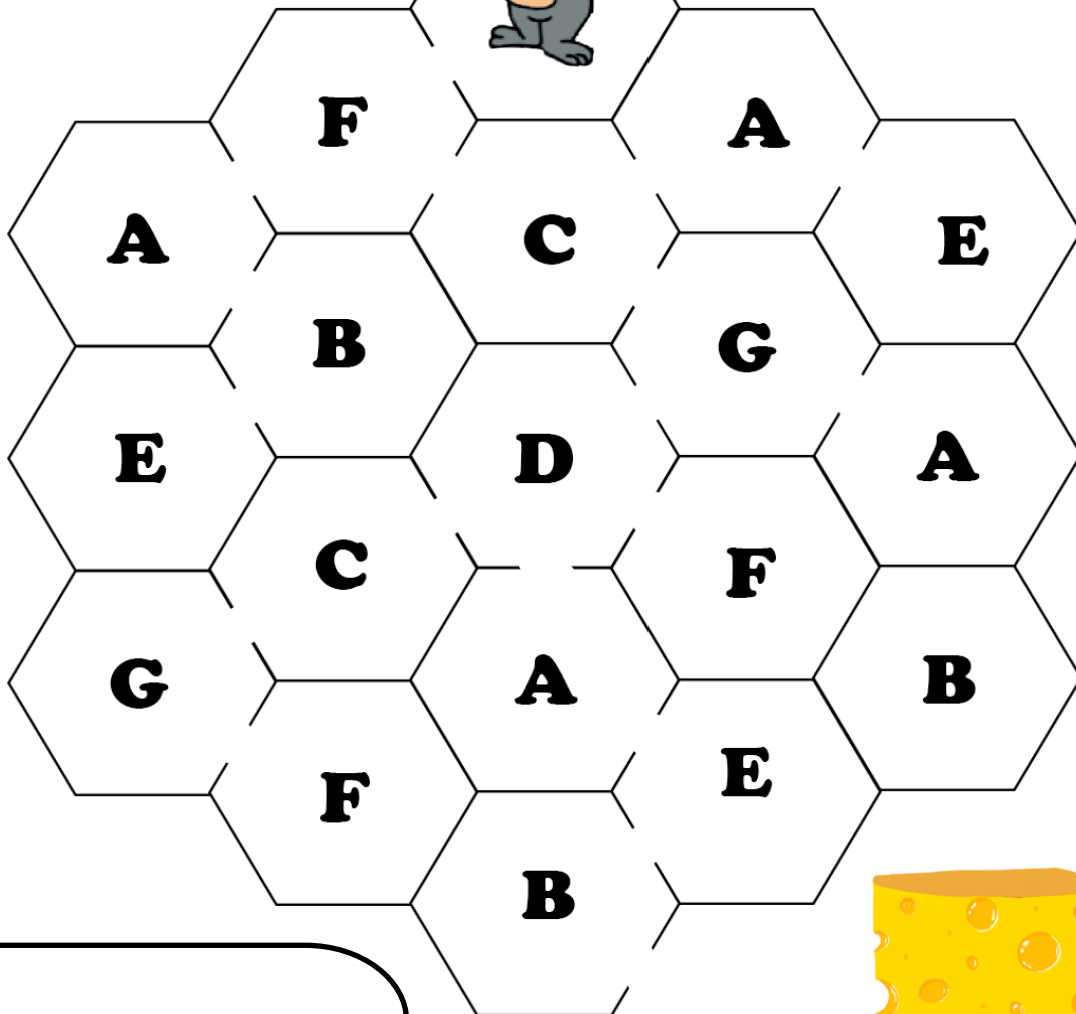

Sharps and Flats Sequences

Wow, I can't believe it!
You have reached Book 8.
You're almost a perfect musician!
(If you've practiced!)

*Let me follow the
Sequence of Sharps
and I'll reach the
cheese!*

*What a
delicious piece
of cheese!*

*Draw a line following the
Sequence of Sharps and you
will know the path that
Allegro Mouse is doing to
reach the cheese.*

*Hint:
remember the
sentence
about Fat
Chimps...?*

*Uh Oh..... I mess up the
Flat's Sequence.
Can you help me?
Write in the boxes below, the
correct sequence of Flats.*

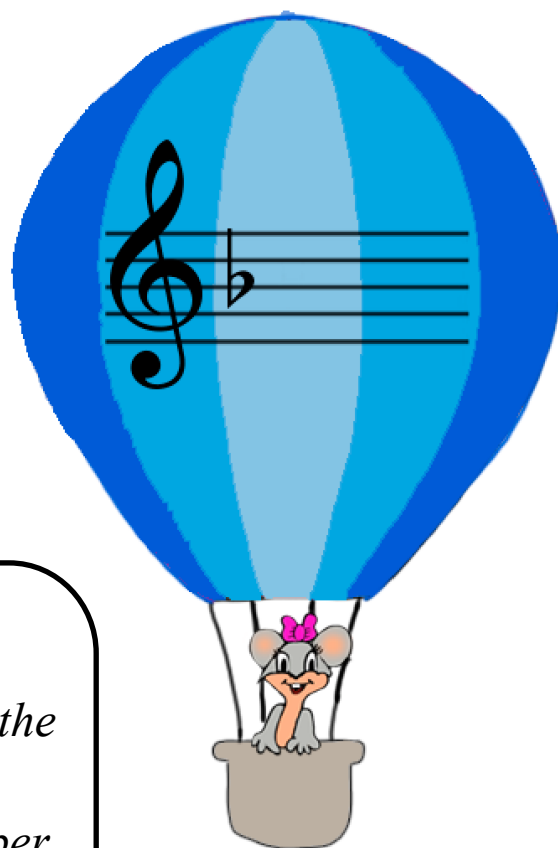

--	--	--	--	--	--	--

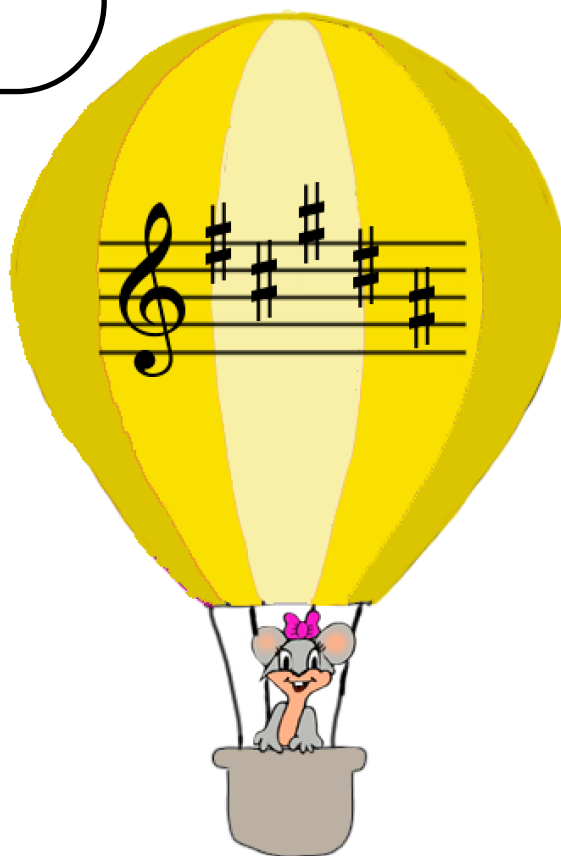

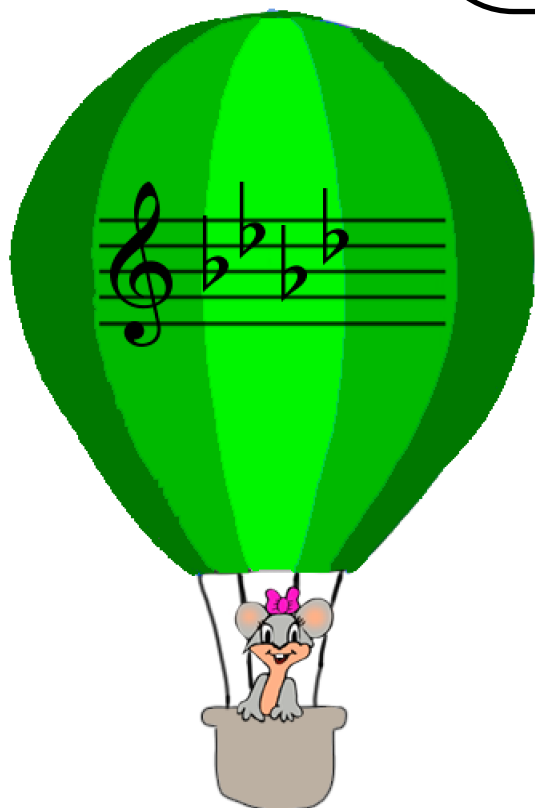

*Do you remember the
Sharp's Sequence?
Write them in the boxes
below.*

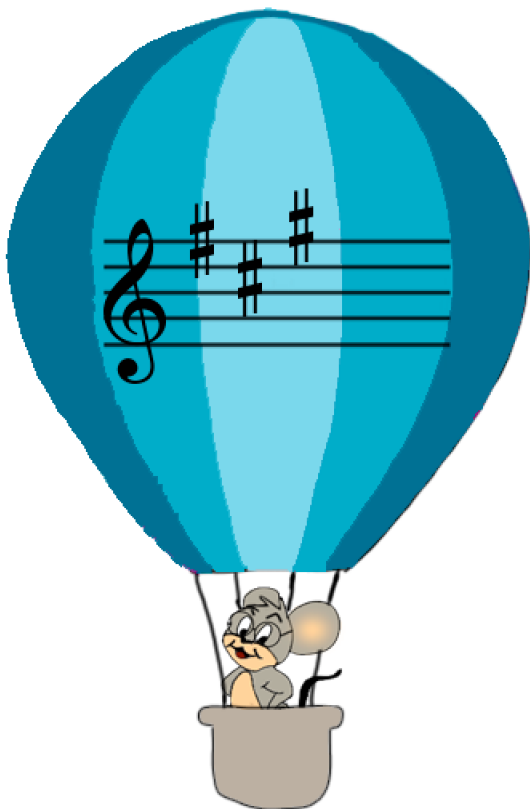

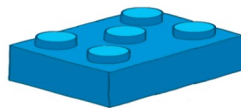

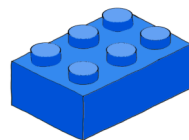

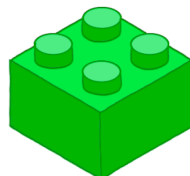

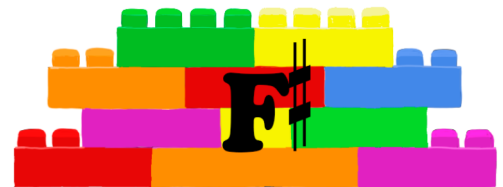

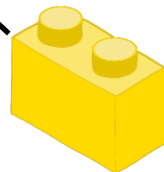

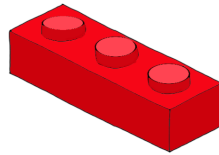

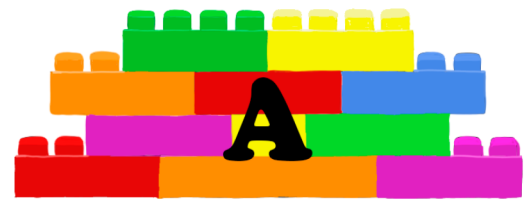

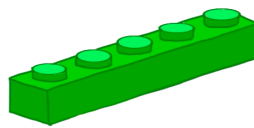

--	--	--	--	--	--	--

More games!
Write in the basket, the
Major Scale that
belongs to the number
of Sharps shown in the
air balloon - like I did
in this example.

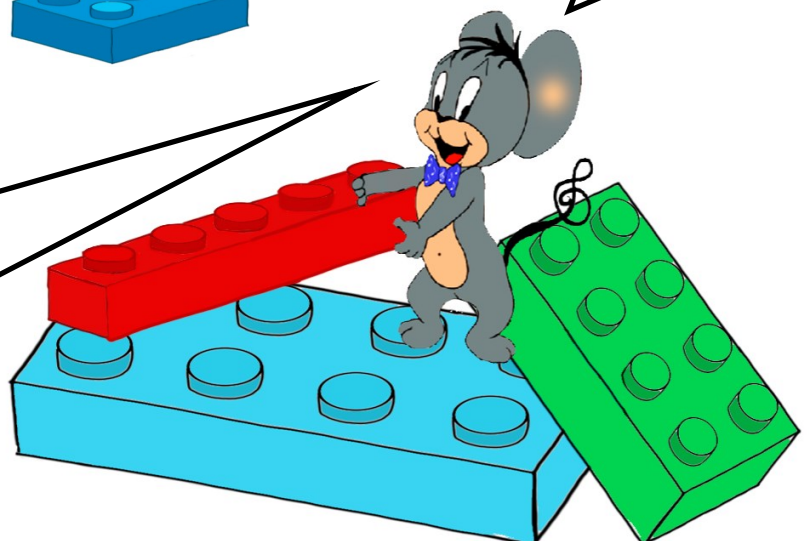

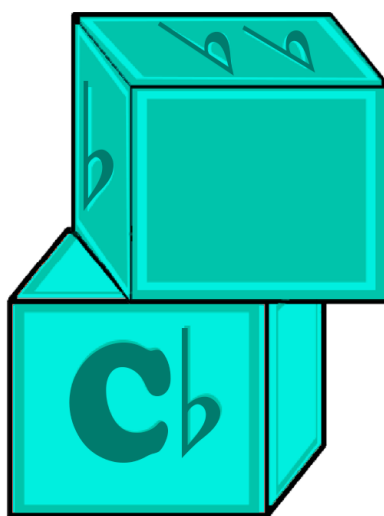

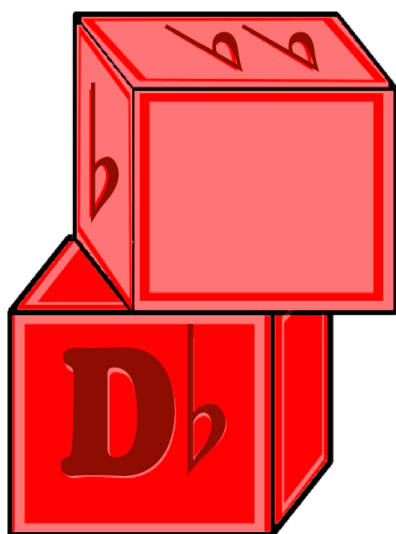

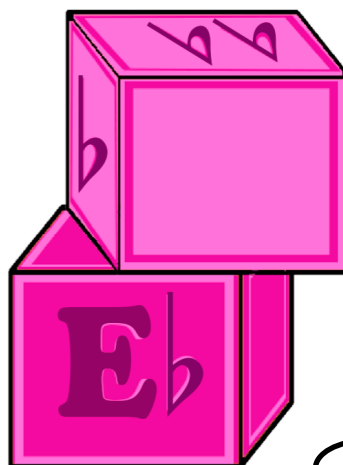

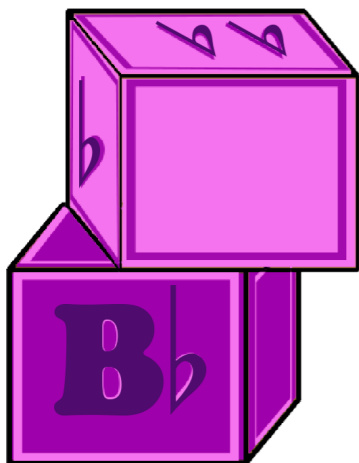

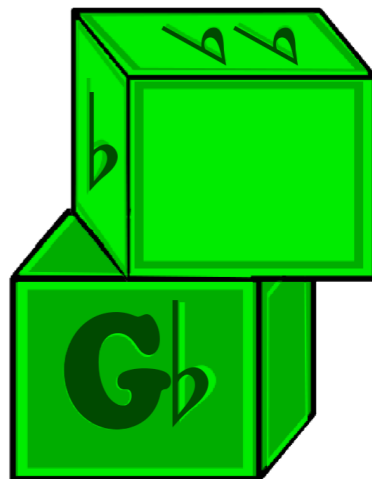

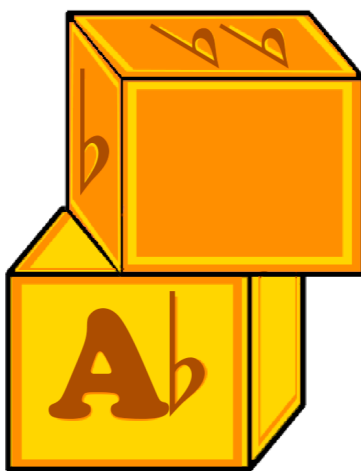

What is the number of Sharps each Scale has?

Draw a line connecting the block with its pile, like I did in the first example.

*Write in the top box,
the number of Flats
that each Scale has.*

*I am sure....
I know!*

*What a great job!
You've now learned the most important
subject of music!
You are almost the perfect musician!*

ALMOST?

*What do you
mean...almost?*

Yes! Almost!

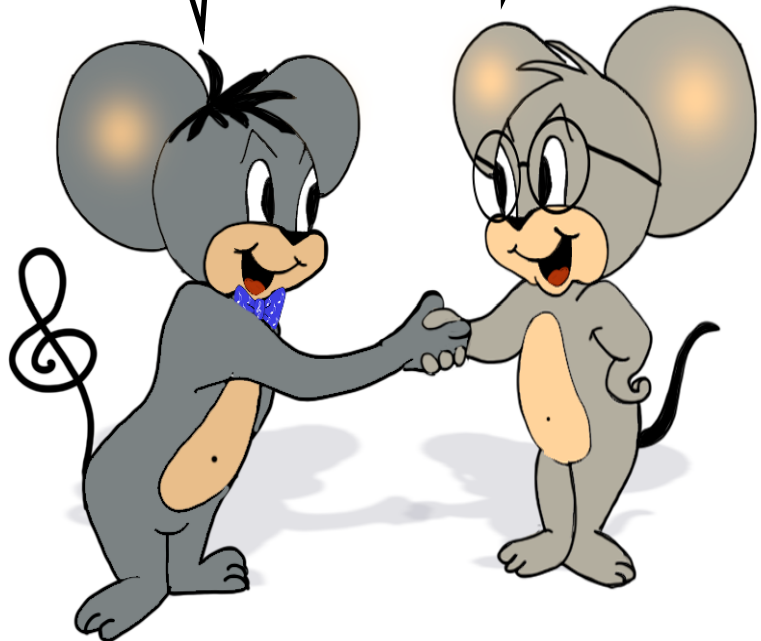

*To be a perfect musician you need to
learn about Intervals and Chords.*

You will learn that in the next book.

*I am super
ready for more
games!*

*Me too!
Practice
makes perfect!*
